I am an experienced Freelance Lighting Cameraman. Studied and Trained in London, UK however I am currently living and working out of Perth, Australia. I have many years experience of filming all over the United Kingdom and around the globe. Over the years in my career I have been fortunate enough to work on a large variety of formats and in many different circumstances. I'm happy working solo, PSC or otherwise very confident in a large Multi-Cam shoot or OB setup. I'm a hard working member of the camera department with a passion for what I do; which is reflected in both my work, and the clientele who come back to me time and time again.

Please find below the full list of my Camera Operating on broadcast, corporate and commercial to date. For Showreel please visit www.christopherlack.com

I'm always looking forward to the next project so get in touch...
